

Name: Georgios Vourliotakis MD, PhD

E-mail: gvourliotakis@aggeia.gr, **site:** www.aggeia.gr

Education

9/1989-6/1995: Medical School of the University of Thessalonica

Medical License 12/10/1995.

Specialty

- 11/1998-11/2000: training in General Surgery for two years in the A' Surgery Clinic of the 401 GMHA
- 11/2000-11/2001: training in General Surgery for one year in the A' Surgery Clinic of University of Athens in "Laiko" Hospital under the direction of Professor Elia Mpastouni.
- 12/2001-3/2006: training in vascular surgery for four years in the A' Surgery Clinic of University of Athens in "Laiko" Hospital under the direction of Professor Elia Mpastouni.
- 5/2006: Vascular Surgeon after participating in oral, written and clinical exams (3268/24-5-2006 decision of Athens Prefecture).

Postgraduate Degree - PhD

Doctorate of Medicine titled: "Contribution in the study of Ve-Cadherin (Vascular Endothelial Cadherin) in the atheromatic carotid plaque", in the A' Surgical Clinic of National and Kapodistriako University of Athens (2001-2005). 18/5/2005 with degree "excellent" (Ph.D. degree).

Graduation ATLS from American College of Surgeons - Greek Department - Course: Advanced Trauma Life Support.

Postgraduate Degree

Endovascular Fellow at the Vascular Surgery Clinic of the University of Groningen, Netherlands, under the guidance of Pr. Verhoeven. Training in endovascular surgery, the minimally invasive endovascular technique of Fenestrated - Branched pararenal and thoracoabdominal aneurysms, as well as the new method of less invasive treatment of varicose veins by Radio Frequency Ablation under local anesthesia. Performing a large number of intravascular procedures, in particular interventions for abdominal and thoracic aortic aneurysms, RFA ablation in varicose interventions and classic vascular surgery.

Clinical experience (as vascular surgeon)

- 6/2006-12/2007: Chief of the Surgery department for 18 months as well as Vice Director of Hospital for 5 months interval in a peripheral Military hospital of Ioannina.
- 1/2008-9/2008: Consultant of Vascular Surgery clinic of the 401 General Military Hospital Athens and 417 NIMTS (Veterans Hospital).
- 9/2008-9/2009: Fellowship in the Endovascular surgery for a (1) year, in the Endovascular Department of Vascular surgery clinic of University Medical Center of Groningen, Netherlands (Chief of endovascular department: Dr E.L. Verhoeven).
- 10/2009-6/2013: Consultant of Vascular Surgery clinic of the 401 General Military Hospital Athens.
- 6/2013-9/2016: Chief of endovascular department of the 401 General Military Hospital Athens.
- 9/2013-9/2016: Deputy Director of Vascular Surgery clinic of the 401 General Military Hospital Athens.
- 10/2016- Deputy Director of Vascular Surgery Department of 417 NIMTS (Veterans Hospital).

Scientific activity

- -36 foreign languages publications in evaluated international medical journals (medline-isi-embase)
- Many publications in Hellenic medical journals
- Writting of 3 chapters in foreign language medical books
- Writting of 4 chapters in greek language university medical books
- Announcing and oral presentations in many Greek and international congresses
- Attending and participation in several Greek and International Congresses
- Member of organizing and scientific committee of many Greek and International Congresses

- Reviewer in many international medical journals
- Invited speaker at roundtable conference sessions
- Greek publications
- Postgraduate courses and seminars

Research

- Participation as investigator in the multicentral, blinded clinical study (stage III) of the drug SanOrg34006 (Indraparinux sodium) of Sanofi-Synthelabo company (N.Pr.St. EFC 3491/64717/19-2-2003).

Discriminations - Scholarship

- Best Announcement Award at the 16th Panhellenic Congress of Vascular and Endovascular Surgery, 3-5 March 2017, Athens, for the announcement: Aortic aneurysm and horseshoe kidney aneurysm. Classical or endovascular treatment?
- Best Announcement Award at the 15th Panhellenic Congress of Vascular and Endovascular Surgery, March 31-April 2, 2016, Athens, for the announcement: Presentation of 2 complex cases of patients with thoracic aortic aneurysm treated hybrid.
- 3o reward of better oral announcement in the XIV Greek Congress of Angiology and Vascular Surgery, 13-16 March 2014, Athens, Greece, for the announcement: Fenestrated and branched endovascular repair of juxtarenal abdominal and thoracoabdominal aortic aneurysms
- Scholarship in 2008 from the General Staff of Army, for education in endovascular surgery for (1) year in the Vascular Department of the University Medical Center of Groningen in Netherland under the supervision of the Chief of Endovascular department Dr. E. L. Verhoeven.
- Reward of better oral announcement in the XII Congress of the Mediterranean League of Angiology and Vascular Surgery, 22-26 May 2002, Paphos, Cyprus, for the announcement: Aneurysms of the extracranial carotid artery: Twenty - year experience.

Instructive work

Trainer in the measurement of abdominal aortic and thoracic aortic aneurysms for endovascular treatment.

- Workshop: Preoperative measurements in Endovascular Aortic Repair, 14th Hellenic Vascular Society Congress, 6-8 March 2015, Athens.
- Workshop-Hands on: Measurements of Aneurysms with Free Access Programs, 14th Panhellenic Congress of Vascular and Endovascular Surgery, March 13-16, 2014, Athens.
- Workshop: Sizing and Planning for Endovascular Repair of Descending Thoracic Aortic Pathologies-Theoretical teaching and Hands-on Practice on Osirix and 3Mensio software on imaging, sizing and planning endovascular repair for thoracic aortic pathologies. In collaboration with the University of Utrecht/Netherlands. LIVE 2013 symposium (Leading Innovative Vascular Education), 23-25 May 2013, Thessaloniki, Greece.
- Workshop: Measuring and sizing in planning EVAR for AAA, January 12, 2013, Athens, Greece.
- LIVE 2012 symposium (Leading Innovative Vascular Education), 24-27 May 2012, Alexandroupolis, Greece.

Courses in vascular surgery

- Courses in vascular surgery and clinical examination of vascular patient in students of Medicine of A' Surgery Clinic of University of Athens, "Laiko" Hospital.
- Postgraduate courses and courses in first aids in permanent or not military personnel as well as in soldiers on the subject "Injuries of abdomen - thorax, rupturing and martial lesions - explosions".
- Vascular Surgery Courses in Nursing and Medical Staff of the UMCG Netherlands, Vascular Surgery Clinic, 401 GMHA and 417 NIMTS.

Points of interest

Less invasive treatment of vascular (arterial and venous) diseases
