

Name

Nikolaos Koumallos

E-mail

koumallosn@yahoo.gr

Education

July 2000 *Medical Degree*, Aristotle University Medical School of Thessaloniki

Specialty

Nov 2012 *FRCS (CTh)*, Fellow of the Royal College of Surgeons in Cardiothoracic Surgery, Royal College of England

Jan 2009 *CCT (Certificate of Completion of Training)* in Cardiothoracic Surgery, Greek Ministry of Health

Postgraduate Degrees

July 2021 *MSc (Master of Science)* in Health Management, Frederick University, Nicosia, Cyprus

Sept 2010 *PhD in Medicine*, University of Athens

Sept 2004 *Postgraduate Degree* in Pre-Hospital Life Support, Greek Ministry of Health

Clinical Experience

Feb 2024-Today Consultant Cardiac Surgeon, Mediterraneo Hospital, Athens

July 2015-Feb 2024 Consultant Cardiac Surgeon, Ippokrateio General Hospital of Athens

July 2014-July 2015 Fellowship in *Adult Cardiac and Aortic Surgery* in St Michaels Hospital, University of Toronto, Canada

March 2009-June 2014 Specialist Registrar in Cardiothoracic Surgery in University Hospital of South Manchester, UK

Nov 2004-Jan 2009	Trainee in Cardiothoracic Surgery in Ippokrateio General Hospital of Athens
Jan 2004-Nov 2004	Research Fellow in the Cardiology Department of the University of Athens
Sept 2001-Jan 2004	Trainee in General Surgery in “Tzaneio” Prefecture General Hospital of Piraeus
Nov 2000-July 2001	Trainee in General Surgery in “AHEPA” General Hospital, Thessaloniki

Scientific Activity/Research

PUBLICATIONS

Indexed Journals (PUBMED)	31
Non-Indexed Journals	8
Published Abstracts	107
Medical Chapters	7
h-index	11

AWARDS-DISTINCTIONS

1. *Research Award in Thrombosis, European Society of Cardiology 2006* for the study: “Genetic polymorphisms on the (alpha)2 subunit of platelet integrin (alpha)2(beta)1 affect the release of sCD40L and P-selectin during acute myocardial infarction and increase cardiovascular risk”
2. *Research Award of Hellenic Society of Cardiology 2005* for the study: “Effects of genetic polymorphisms 807 C/T and 1648 A/G of glycoprotein Ia on the development of premature myocardial infarction in Greece”
3. *Research Award of Hellenic Society of Cardiology 2004* for the study: “Effects of Genetic polymorphism G894T on eNOS gene on the development of premature myocardial infarction in Greece”
4. *Distinction in the lesson of Anatomy I and II* in the University of Thessaloniki. Entrusted teaching duties in the lesson of Anatomy III by the Professor of Anatomy, Thessaloniki 1996-97

REVIEWER IN IN PEER PEER-REVIEWED JOURNALS
