## EUropean REGistry on Cardiovascular Imaging (EURECA Imaging)

Newsletter of December 2022

### Some words from the Chairs

Victoria Delgado & Danilo Neglia

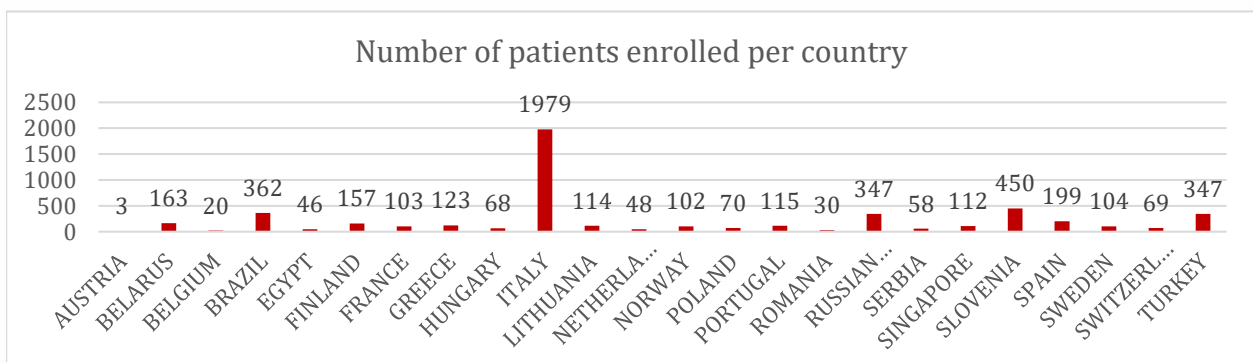

Dear Colleagues, the long journey that we started together in 2019 has finally led to the publication of the first EURECA results in the European Heart Journal. The ESC EURECA network is an example of how hundreds of dedicated researchers from many different countries were able to efficiently work together, despite many difficulties, and get relevant information to improve clinical practice and the health of our patients. The EURECA journey will continue...be ready! Thanks a lot to everyone.

We are pleased to inform you that **the main paper of EURECA Registry "Use of cardiac imaging in chronic coronary syndromes: the EURECA Imaging registry" has been published in the European Heart Journal.**

The article is available through the following link: <https://academic.oup.com/eurheartj/advance-article/doi/10.1093/eurheartj/ehac640/6855562>

Please find below the main figures regarding EURECA registry:

- 73 participating sites
- 5189 patients enrolled
- 5156 patients locked (only eCRFs signed off)

Thank you for your involvement in this successful registry.

Our mission: to reduce the burden of cardiovascular disease.
